

Meritor Parts

Meritor Parts - The Meritor Business is a premier global dealer built upon 100 years of custom of service and quality. Meritor concentrates on integrated systems with a range of modules and components to the original equipment makers and aftermarket equipment within the industrial and transportation sectors.

Meritor values the needs of their customers to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than 11,200 people, Meritor encourages collaboration and innovation among a team of experienced experts.

By just employing future focused employees, Meritor strongly thinks these top-caliber people would be able to quickly get used to to changing environments and exhibit the commitment and performance required to reach results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor provides their employees different possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering which include drivelines, axles, suspension and braking systems utilized for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is likewise responsible for supporting the requirements of their global engineering employees.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated around the world in 19 countries and in 5 different continents.

The supplier development network is specially located to be able to support new business development. Regional teams are supported by worldwide centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making within each part of the company. The DFSS or otherwise known as Design for Six Sigma ensures product reliability in each region. The team is even comprised of transactional Green Belts who utilize Six Sigma tools to business methods and implement lean methods.
